Little Wonder High Performance Vac

Professionals demand Little Wonder products because of their quality, durability and power. The Little Wonder 6-HP High Performance Vac (HPV) certainly fits the Little Wonder product profile. The new Little Wonder HPV is more than a lawn vacuum - it's a heavy-duty "all-debris" collection system.

The HPV features an advanced impeller and housing design for superior suction and reduced noise levels. The powerful suction of the HPV easily picks up rocks, bottles, cans, glass, paper, leaves and wet debris quickly and completely. The HPV also features a unique floating nozzle that adjusts to the terrain - if the nozzle comes in contact with an obstacle or bump; the nozzle floats over the obstruction without interrupting suction.

The HPV's five-blade reverse inclined fan effortlessly reduces debris down to a fraction of its original size, and the unit's exclusive debris collection bag holds up to 8 bushels (or 90 lbs.) of shredded debris. The HPV is no lightweight! The unit weighs 182 lbs., but the HPV's weight works in unison with the unit's tubular steel frame and pneumatic four-wheel design, to maintain precision balance - even when the bag is full. Little Wonder also clears the air with a unique dust direction system that reduces clouding and redirects dust particles to ground level and away from the users face.

All Little Wonder products are designed and engineered with the professional user in mind. The new Little Wonder HPV is built to withstand heavy-duty daily use.

The Little Wonder HPV comes with a one-year commercial/consumer warranty. Little Wonder products are available through over 3,000 Little Wonder and Mantis dealers nationwide.
