Full-On Commercial Mowing Prowess

BOB-CAT Broadens FastCat Line with Introduction of New Pro 61 Mowers

BOB-CAT FastCat Pro 61 shown with optional fold-down ROPS.

Mark your 2009 GIE & EXPO map with a big red paw as a reminder to visit the BOB-CAT booth to see the new FastCat Pro 61, making its debut in Louisville this fall. BOB-CAT is poised to bring economy, utility and performance to the large property commercial landscaper with the introduction of the FastCat Pro 61 – a 61-inch deck zero-turn riding mower that is performance-packed and full-on commercial at a fraction of the weight of larger, harder riding units.

The new BOB-CAT FastCat Pro 61 offers power features that include; Hydro-Gear Commercial ZT-3400 Transaxles (optimized 12cc pump and motor) that provide for higher ground speed and higher load capabilities, a heavy-duty canister air filter for trouble-free performance, and your choice of commanding engine: 23hp Briggs & Stratton Vanguard or 24 hp Kawasaki FX Series. BOB-CAT's commercial triple-blade 61" DuraDeck™ with Extreme Discharge System, 4-point adjustment and 7 anti-scalp rollers supply a crisp, clean, even cut ensured by the Quick-Lift foot assist pedal that raises and lowers the deck without locking it into position, putting the operator in complete control over the terrain. Fully-dampened height adjustable operator controls cradle the thrown - a luxurious High-Back Flex-Suspension™ seat that utilizes calibrated resistance to provide for a smooth, vibration-free ride. The FastCat Pro 61 utilizes a lighter footprint and

strategic weight distribution to reduce turf marking and tire slippage and the units' 49-inch stance and 23-inch drive wheels provide for better ground clearance with superior traction for more precise handling.

Simply put, if you mow for a living - the FastCat Pro 61 is a must-try at this year's GIE & EXPO. Visit BOB-CAT's inside booth #4054 to learn more then give the new mowers a test drive at the BOB-CAT outside demo area (booth #7506D) located in the middle of all of the action where the Brat booth was in 2008.

BOB-CAT FastCat Pro 61 Features:

- **Briggs & Stratton 23hp Vanguard V-Twin Engine**
- **Kawasaki 24hp FX Series V-Twin Engine**
 - 2-Year Commercial Warranty

MEDIA RELEASE

About BOB-CAT FastCat Zero-Turn Riding Mowers

In 2006, BOB-CAT introduced the compact FastCat line of zero-turn riding mowers - tough, affordable zero-turn riding mowers designed for the lawn care professional and discriminating homeowner. The FastCat line includes:

FastCat RZ: The FastCat RZ is designed for the large property owner who wants an affordable, commercial quality zero-turn mower that delivers a high quality of cut. The FastCat RZ doesn't sacrifice comfort! The ergonomically designed controls and high back adjustable seat with armrests make mowing a pleasure.

- Models: 42" Deck w/22hp Briggs & Stratton ELS V-Twin engine
- 52" Deck w/26hp Briggs & Stratton ELS V-Twin engine
- Mowing Speed: up to 8 mph
- Standard High-Back Bucket Seat w/Arm Rests
- Hydro-Gear ZT-2800 Transaxles

FastCat Pro: The FastCat Pro is designed for the professional who demands a durable, functional zero-turn mower that performs day in and day out. The FastCat Pro features Canister Air Filtration, Hydro-Gear Transaxles, Commercial DuraDeck™ with Extreme Discharge System and a High-Back Flex-Suspension™ seat that provides a smooth, vibration-free ride.

- Models: 36" Deck w/17hp Kawasaki Kai V-Twin engine
- 48" Deck w/20hp Kawasaki FX Series V-Twin engine
- 52" Deck w/22hp Kawasaki FX Series V-Twin engine
- NEW** 61" Deck w/23hp Briggs & Stratton Vanguard V-Twin engine
- NEW** 61" Deck w/24hp Kawasaki FX Series V-Twin engine
- Mowing Speed: up to 8 mph (36", 48" & 52" decks) up to 10 mph (61" deck)
- High-Back Flex-Suspension™ Seat w/Adjustable Arm Rests
- Heavy-Duty Canister Air Filter
- Hydro-Gear Transaxles: ZT-3100 (36", 48" & 52" decks), ZT-3400 (61" deck)

FastCat Pro (above) shown with optional Boss-Vac™ Collection System.
